

## Horse News Correction

In the March 2010 issue of “Horse News”, the page 40 article “Mustangs join Draft-crosses at auction this year” incorrectly stated that the 4 Rutgers University Mustangs were obtained from a Bureau of Land Management three strikes adoption held in Ithaca, New York. These 4 Mustangs are three strike horses that were transported to a regular satellite adoption specifically for Rutgers. The Bureau of Land Management does not hold three strike adoptions.
