

Irene Lopez and Bill Keebler

Irene and Bill are from Salt Lake City Utah. They have been friends for the past 5 years. They are both explorers and horse enthusiasts. When ever they have a long weekend, they like to go camping and search for Wild Mustangs. They go out several times a year. Sometimes they never see any horses at all. This year they were very lucky when they found a large herd from the Cedar Mountain Herd Management Area fifty miles west of Salt Lake City. All the Wild Mustang pictures on our Web-site at this time are from that trip.

The USWHBA would like to thank Irene and Bill for letting us use their photos on our Web-site. If you would like to contact Irene and Bill about their photos or the methods they use to find and photograph Wild Mustangs, you can contact them at the following e-mail addresses.
